

# UTRECHT SCIENCE PARK

## IMPROVING HEALTH AND QUALITY OF LIFE

Utrecht Science Park is the **largest science park** in the Netherlands.

Daily **22,000+** employees and **50,000+** students.

**Companies:** 80+ of which 30+ in life sciences.

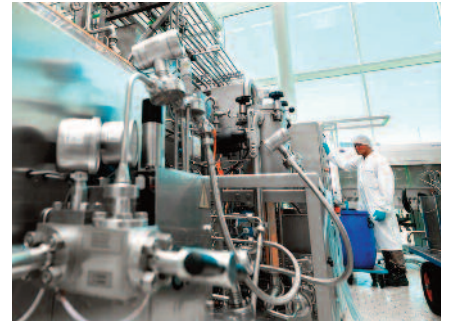

**5,000 new jobs** in **5 years**.

Home to **the Netherlands' best research university** since 2003 (Shanghai Ranking).

Home to the University Medical Center Utrecht, one of the Netherlands' **largest** public (health) care institutions.

**Amsterdam Airport Schiphol**, the fourth busiest in Europe, is only a 30-minute train ride from Utrecht.

Danone's second R&D centre (after its headquarters in Paris) is located at Utrecht Science Park. Nutricia Research is the global hub for activities concerning Early Life Nutrition and Advanced Medical Nutrition.

Utrecht Science Park and Bilthoven in the background.

Signing of the memorandum of understanding between Utrecht Science Park and Science Park Bilthoven for the development of the first science park in the Netherlands with a satellite location.

Merus is a clinical-stage company developing biotherapeutics to treat and potentially cure cancer patients. It is Nasdaq listed since 2016.

From 75% to 95% curing rate of children with cancer: the Princess Máxima Centre will be Europe's largest centre for paediatric oncology.

New research facility for the international biotechnology company Genmab. Genmab is specializing in the creation and development of differentiated antibody therapeutics for the treatment of cancer. The company is the second largest biotech company in Europe and is worth almost €10 billion.

The Hubrecht Institute, that celebrated its 100 year anniversary in 2016, is world-leading in stem cell research.

**2,500+ students** live in the 4 student dorms at Utrecht Science Park.

Around **20,000** people per day arrive **by bicycle** at Utrecht Science Park.

**Architectural paradise:** the Educatorium by Rem Koolhaas, the University Library by Wiel Arets and the Minnaert Building by Neutelings Riedijk are featured in the book '1001 buildings you must see before you die'.

Utrecht Science Park has a great network for **startups and SME's:** with UtrechtInc as one of the top 10 incubators in Europe (UBI index 2015), the pre-incubator & co-working space the Garage, and the new Life Sciences Incubator.

Johanna is the newest student complex at Utrecht Science Park. It offers 655 rooms and apartments.

De Maaltuin, a pop-up restaurant in the Botanic Gardens, is one of the many examples of social entrepreneurship at Utrecht Science Park.

Utrecht Science Park has its **own Marathon**.

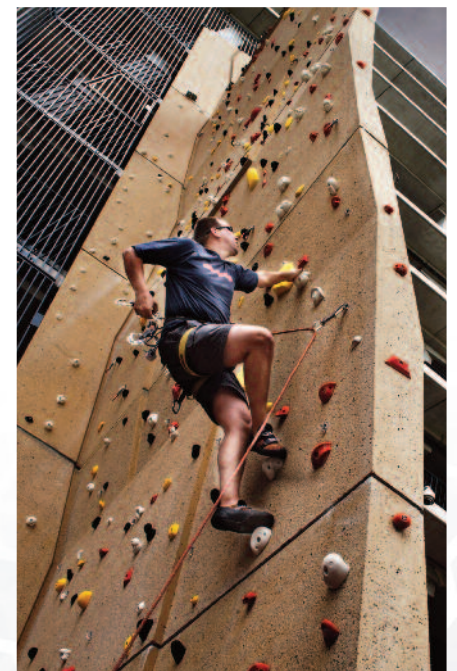

Utrecht Science Park hosts the only **climbing wall** placed directly against a P+R multi-storey car park.

Utrecht Science Park is the only science park with **its own festival!** A surprising mix of live music, science and art in one of the most beautiful festival locations of the Netherlands: the Botanic Gardens at Utrecht Science Park.

Rooftop garden on the top floor of a parking lot created by social entrepreneurs.

The climbing wall placed against the P+R multi-storey car park.

UtrechtInc's 'the Garage': a 'pre-incubator' where startups, researchers, companies and students experiment with innovative startup concepts which support the development of a healthy society.
